

# 2nd Annual Community of Practice Workshop

Register now for our **FREE** Community of Practice workshop in Prince George November 25-27, 2025.

We're excited to bring together practitioners like you to share learnings, build a positive future for our professional community, and collectively advance restoration efforts in Northern B.C.

## Our Vision

To build, develop, and strengthen our community of practice through knowledge sharing, communication, and collaboration.

## Join us in Creating our Future for the Northern Restoration Community of Practice

This won't be your ordinary conference. We are mixing presentations and small group discussions with a facilitated activity to build our collective vision for the Community of Practice.

You can expect to:

- Gain new insights from your colleagues by learning about their projects and outcomes through presentations;
- Have opportunities for small group discussions and coaching with your peers to discuss current successes, challenges and learnings in your work;
- Co-create a vision for where we want to take the community of practice in the next 3-5 years; and
- Identify tangible steps we can take as a community, and you can take as an individual, to grow our community of practice.

Register

Remote participation is possible, however, we encourage you to attend in person at the beautiful Uda dune Baiyoh (House of Ancestors). Lunches are included free of charge, and we can't wait to welcome you!

Space is limited, so register now to secure your place.

Travel stipends are available for participants from Indigenous communities. Please email [mae.whyte@sernbc.ca](mailto:mae.whyte@sernbc.ca) for more information.

---

## Webinar Series

We're kicking off a "lunch and learn" style webinar series later this month. Save the dates and click below to register and get it in your calendars!

Our 2025 speakers are:

- September 23 - Brandon Geldart, SERNbc
- October 21 - Gary Pritchard, 4 Directions Conservation Consulting
- December 16 - Katelyn White, BC Energy Regulator
