

# Community of Practice: Webinars and Permits

Thank you to everyone who participated in last week's workshop online and in-person. Our heads and hearts are full... which is a great place to be while compiling all the shared learnings and reflecting on our strengths.

Let's keep the momentum going by continuing to celebrate our successes, share knowledge, and collaborate, collaborate, collaborate!

## Permitting:

One of the biggest challenges restoration practitioners face is permitting. We heard you loud and clear. The organizing team has requested a bit more information to inform near-term discussions.

[Please complete this short survey](#) to articulate barriers and solutions - your voice matters and we want to hear from everyone.

Survey closes Sunday at 5 p.m. PST so we can compile your insights. ❤️

## Community of Practice Webinars:

Your Community of Practice (CoP) Lunch-and-Learn webinar series has TWO iterations this month:

- December 2nd: Introducing the Skeena Restoration Project Registry and Data Hubs: Manuela Zindler, [Skeena Knowledge Trust](#)
- December 16th: Ecologically-suitable Species Guideline: Katelyn White, [BC Energy Regulator](#)

[Click here to register](#)

## McLeod Lake Habitat Enhancement Presentation:

Brandon Geldart, SERNbc's Program Coordinator, is speaking at a UNBC event on Wednesday, December 3rd at noon PST.

Stop by 10-1079 (Rm 1079, Charles McCaffray Hall) or [register online here](#).

**Restoration Community of  
Practice Workshop**

There are lots of ways to get more involved with the CoP, facilitated by the organizing team:

- organize or join a subject matter working group
- organize or join a regional group - each of our three northern 'regions' will have a group
- join the Organizing Team, either as an individual or on behalf of your organization
- share knowledge in a webinar, conference presentation, or hands-on workshop.

Just reach out, we'd love to hear from you!
